

THE ADVISORS' INNER CIRCLE FUND II

Perimeter Small Cap Growth Fund (the "Fund")

Supplement dated June 1, 2009 to the I Shares Prospectus dated November 28, 2008

This supplement provides new and additional information beyond that contained in the Prospectus and should be read in conjunction with the Prospectus.

Effective June 1, 2009, the Fund's adviser, Perimeter Capital Management LLC (the "Adviser"), has voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.10% (formerly 1.00%) of the Fund's I Shares' average daily net assets. Accordingly, the Prospectus is hereby amended as follows:

1. ON PAGE 5, THE FOLLOWING REPLACES THE FOOTNOTE TO THE FEE TABLE UNDER THE HEADING "ANNUAL FUND OPERATING EXPENSES:"

* The actual Total Annual Fund Operating Expenses for the most recently completed fiscal year were less than the amount shown above because the Adviser voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.00% of the Fund's I Shares' average daily net assets. Effective June 1, 2009, the Adviser has voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.10% of the Fund's I Shares' average daily net assets. The Adviser may discontinue all or part of its fee reductions or expense reimbursements at any time. If at any point it becomes unnecessary for the Adviser to reduce fees or make expense reimbursements, the Board may permit the Adviser to retain the difference between the Total Annual Fund Operating Expenses and 1.10% to recapture all or a portion of its reductions and reimbursements made during the preceding three-year period.

2. ON PAGE 10, THE FOLLOWING REPLACES THE SECOND PARAGRAPH UNDER THE HEADING "INVESTMENT ADVISER:"

For its services, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.90% based on the average daily net assets of the Fund. Effective June 1, 2009, the Adviser has voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep total expenses (excluding interest,

taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.10% of the Fund's I Shares' average daily net assets. Prior to June 1, 2009, the Adviser had voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep total expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.00% of the Fund's I Shares' average daily net assets. The Adviser intends to continue its expense limitation until further notice, but may discontinue it at any time. If at any point it becomes unnecessary for the Adviser to reduce fees or make expense reimbursements, the Board may permit the Adviser to retain the difference between the total annual Fund operating expenses and 1.10% to recapture all or a portion of its reductions and reimbursements made during the preceding three-year period. For the fiscal year ended July 31, 2008, the Fund paid 0.62% of its average daily net assets in advisory fees to the Adviser.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.

PERIMETER SMALL CAP GROWTH FUND

FUND INVESTMENT OBJECTIVE

The investment objective of the Fund is to seek long-term capital appreciation. This investment objective is non-fundamental and may be changed by the Fund without shareholder approval.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its net assets in small-cap equity securities. This investment policy may be changed by the Fund upon 60 days' prior notice to shareholders. The Fund currently defines small-cap equity securities as those of companies with market capitalizations between \$50 million and \$3 billion at the time of purchase. The Fund's investments will generally consist of U.S. traded securities, which may include American Depositary Receipts ("ADRs"), among other types of securities.

The Fund's investment philosophy is based on the premise that a portfolio of small cap stocks with positive earning trends, reasonable valuation, and strong fundamentals will provide superior returns over time. Perimeter Capital Management LLC (the "Adviser") selects companies with strong current earnings growth, improving profitability, strong balance sheets, and strong current and projected business fundamentals which are priced at reasonable valuations. The Adviser believes in executing a very disciplined and objective investment process and in controlling risk through a broadly diversified portfolio. Because companies tend to shift in relative attractiveness, the Fund may buy and sell securities frequently, which may result in higher transaction costs, additional capital gains tax liabilities and may adversely impact performance. In addition, in order to implement its investment strategy, the Adviser may buy or sell, to a limited extent, derivative instruments (such as futures, options, and swaps) to use as a substitute for a purchase or sale of a position in the underlying assets and/or as part of a strategy designed to reduce exposure to other risks, such as market risk. The Adviser will not necessarily sell a security that has appreciated or depreciated outside the stated market capitalization range defined above.

PRINCIPAL RISKS OF INVESTING IN THE FUND

As with all mutual funds, a shareholder is subject to the risk that his or her investment could lose money. The principal risk factors affecting shareholders' investments in the Fund are set forth below.

Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

The Fund is also subject to the risk that small-capitalization stocks may underperform other segments of the equity market or the equity market as a whole. The small-capitalization companies that the Fund invests in may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, these small-cap companies may have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Because the Fund may invest in ADRs, it is subject to some of the same risks as direct investments in foreign companies. These include the risk that political and economic events unique to a country or region will affect those markets and their issuers. These events will not necessarily affect the U.S. economy or similar issuers located in the United States.

For information about the risks involved when investing in derivatives, see "More Information About Risk."

PERFORMANCE INFORMATION

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Fund. Of course, the Fund's past performance does not necessarily indicate how the Fund will perform in the future.

Please note that the I Shares were first offered on December 31, 2007, and therefore do not have a full calendar year of performance. As a result, the bar chart and the performance table show the performance of the Fund's Investor Class Shares for the most recent calendar year. The per-

formance shown has not been adjusted to reflect the fees of I Shares. The average annual total return table compares the average annual returns of Investor Class Shares of the Fund to those of a broad-based securities market index. Investor Class Shares of the Fund are offered in a separate prospectus. I Shares of the Fund would have substantially similar performance as Investor Class Shares because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the expenses of the Investor Class Shares are higher than the expenses of the I Shares and, therefore, returns for the Investor Class Shares would be lower than those of the I Shares. Returns are based on past performance and are not an indication of future performance.

Best Quarter	Worst Quarter
7.77%	(4.66)%
(06/30/2007)	(12/31/2007)

The performance information shown above is based on a calendar year. The Fund’s performance for I Shares from 1/1/08 to 9/30/08 was (17.17)%.

In addition, the Fund’s primary portfolio manager managed another mutual fund with an investment strategy substantially similar to that of the Fund. For information representing the performance of this other mutual fund, see “Performance of Comparable Account.”

Average Annual Total Returns

This table compares the Fund's Investor Class Shares' average annual total returns for the periods ended December 31, 2007 to those of the Russell 2000® Growth Index.

	1 Year	Since Inception*
Fund Returns Before Taxes	7.66%	13.04%
Fund Returns After Taxes on Distributions**	7.24%	12.69%
Fund Returns After Taxes on Distributions and Sale of Fund Shares**	4.98%	10.91%
Russell 2000® Growth Index (reflects no deduction for fees, expenses or taxes)	7.05%	12.94%

* The Fund's Investor Class Shares' inception date was September 29, 2006. Index comparisons begin on September 30, 2006.

** After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Your actual after-tax returns will depend on your tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

What is an Index?

An index measures the market prices of a specific group of securities in a particular market or market sector. You cannot invest directly in an index. Unlike a mutual fund, an index does not have an investment adviser and does not pay any commissions or expenses. If an index had expenses, its performance would be lower. The Russell 2000® Index is a widely-recognized, capitalization-weighted index that measures the performance of the smallest 2,000 companies in the Russell 3000® Index. The Russell 2000® Growth Index measures the performance of those Russell 2000® companies with higher price-to-book ratios and higher forecasted growth values.

FUND FEES AND EXPENSES

This table describes the fees and expenses you may pay if you buy and hold I Shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

	I Shares
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of net asset value)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Other Distributions (as a percentage of offering price)	None
Redemption Fee (as a percentage of amount redeemed, if applicable)*†	2.00%

* Proceeds wired to your bank account may be subject to a \$10 fee.

† This redemption fee will be imposed on shares redeemed within seven days of purchase unless the redemption is excluded under the Redemption Fee Policy. For more information, see “Redemption Fee.” This fee is not a sales charge and is payable directly to the Fund.

Annual Fund Operating Expenses (expenses deducted from Fund assets)

	I Shares
Investment Advisory Fees	0.90%
Other Expenses*	0.54%
Total Annual Fund Operating Expenses**	1.44%

* Other expenses include custodian, legal and audit expenses, are based on estimated amounts for the current fiscal year and do not correlate to the Fund’s I Shares financial highlights for the period ended July 31, 2008.

** The Adviser has voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, acquired Fund fees and expenses, and extraordinary expenses) from exceeding 1.00% of the Fund’s I Shares’ average daily net assets. The Adviser may discontinue all or part of these fee reductions or expense reimbursements at any time. If at any point it becomes unnecessary for the Adviser to reduce fees or make expense reimbursements, the Board may permit the Adviser to retain the difference between the Total Annual Fund Operating Expenses and 1.00% to recapture all or a portion of its reductions and reimbursements made during the preceding three-year period.

For more information about Investment Advisory Fees, see “Investment Adviser.”

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and that you sell your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, Fund operating expenses remain the same and you reinvest all dividends and distributions. Although your actual costs and returns might be different, based on these assumptions your approximate costs of investing \$10,000 in the Fund would be:

1 Year	3 Years	5 Years	10 Years
\$147	\$456	\$787	\$1,724

MORE INFORMATION ABOUT RISK

The Fund is a mutual fund. A mutual fund pools shareholders' money and, using professional investment managers, invests it in securities.

The Fund has an investment goal and strategies for reaching that goal. The Adviser invests the Fund's assets in a way that it believes will help the Fund achieve its goal. Still, investing in the Fund involves risk and there is no guarantee that the Fund will achieve its goal. The Adviser's judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment. In fact, no matter how good a job the Adviser does, you could lose money on your investment in the Fund, just as you could with similar investments. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.**

The value of your investment in the Fund is based on the market prices of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the Fund owns and the markets in which they trade. The effect on the Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings.

Equity Risk — Equity securities include public and privately issued equity securities, common and preferred stocks, warrants, rights to subscribe to common stock and convertible securities, as well as instruments that attempt to track the price movement of equity indices. Investments in equity securities and equity derivatives in general are subject to market risks that may cause their prices to fluctuate over time. The value of such securities convertible into equity securities, such as warrants or convertible debt, is also affected by prevailing interest rates, the credit quality of the issuer and any call provision. Fluctuations in the value of equity securities in which a mutual fund invests will cause the Fund's net asset value ("NAV") to fluctuate. An investment in a portfolio of equity securities may be more suitable for long-term investors who can bear the risk of these share price fluctuations.

Foreign Security Risk — Investments in securities of foreign companies (including direct investments as well as ADRs) can be more volatile than investments in U.S. companies. Diplomatic, political, or economic developments, including nationalization or appropriation, could affect investments in foreign companies. Foreign securities markets generally have

less trading volume and less liquidity than U.S. markets. In addition, the value of securities denominated in foreign currencies, and of dividends from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Foreign companies or governments generally are not subject to uniform accounting, auditing, and financial reporting standards comparable to those applicable to domestic U.S. companies or governments. Transaction costs are generally higher than those in the United States and expenses for custodial arrangements of foreign securities may be somewhat greater than typical expenses for custodial arrangements of similar U.S. securities. Some foreign governments levy withholding taxes against dividend and interest income. Although in some countries a portion of these taxes are recoverable, the non-recovered portion will reduce the income received from the securities comprising the portfolio.

Derivatives Risks — Derivatives may involve risks different from, and possibly greater than, those of traditional investments. The Fund may use derivatives (such as futures, options, and swaps) to attempt to achieve its investment objective and offset certain investment risks, while at the same time maintaining liquidity. These positions may be established for hedging or non-hedging purposes. Risks associated with the use of derivatives include the following risks associated with hedging and leveraging activities:

- The success of a hedging strategy may depend on an ability to predict movements in the prices of individual securities, fluctuations in markets, and movements in interest rates.
- The Fund may experience losses over certain ranges in the market that exceed losses experienced by a fund that does not use derivatives.
- There may be an imperfect or no correlation between the changes in market value of the securities held by the Fund and the prices of derivatives.
- There may not be a liquid secondary market for derivatives.
- Trading restrictions or limitations may be imposed by an exchange.
- Government regulations may restrict trading derivatives.
- The other party to an agreement (e.g., options or expense swaps) may default; however, in certain circumstances, such counterparty risk may be reduced by having an organization with very good credit act as intermediary. Because options premiums paid or received by the Fund

are small in relation to the market value of the investments underlying the options, buying and selling put and call options can be more speculative than investing directly in securities.

MORE INFORMATION ABOUT FUND INVESTMENTS

The investments and strategies described in this prospectus are those that the Fund uses under normal conditions. During unusual economic or market conditions, or for temporary defensive purposes, the Fund may invest up to 100% of its assets in money market instruments and other cash equivalents that would not ordinarily be consistent with its investment objective. If the Fund invests in this manner, it may not achieve its investment objective. The Fund will only make temporary defensive investments if the Adviser believes that the risk of loss outweighs the opportunity for capital appreciation.

This prospectus describes the Fund's principal investment strategies, and the Fund will normally invest in the types of securities described in this prospectus. In addition to the investments and strategies described in this prospectus, the Fund also may invest, to a lesser extent, in other securities, use other strategies and engage in other investment practices that are not part of its principal investment strategy. These investments and strategies, as well as those described in this prospectus, are described in detail in the Fund's Statement of Additional Information (for information on how to obtain a copy of the Statement of Additional Information, see the back cover of this prospectus). Of course, there is no guarantee that the Fund will achieve its investment goal.

INFORMATION ABOUT PORTFOLIO HOLDINGS

The Fund generally publishes a complete list of its portfolio holdings on a monthly basis, as of the end of the previous month. For example, the Fund's investments as of the end of January would ordinarily be published at the end of February. The Fund also publishes a list of its ten largest portfolio holdings, and the percentage of the Fund's assets that each of these holdings represents, on a monthly basis, ten (10) days after the end of the month. The portfolio information described above can be found on the internet at <http://sei2funds.seic.com/perimeter>. The information will generally remain available until replaced by new portfolio holdings information as described above. The Adviser may exclude any portion of the Fund's portfolio holdings from publication when deemed to be in the best interest of the Fund. Please consult the Fund's Statement of Additional Information for a full description of the policies and procedures that govern disclosure of the Fund's portfolio holdings.

INVESTMENT ADVISER

Perimeter Capital Management LLC, a Delaware corporation formed in 2006, serves as the investment adviser to the Fund. The Adviser's principal place of business is located at Five Concourse Parkway, Suite 2725, Atlanta, Georgia 30328. As of September 30, 2008, the Adviser had approximately \$757 million in assets under management.

For its services, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.90% based on the average daily net assets of the Fund. The Adviser has voluntarily agreed to reduce its fees and reimburse expenses to the extent necessary to keep total expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) from exceeding 1.00% of the Fund's I Shares' average daily net assets. The Adviser intends to continue this expense limitation until further notice, but may discontinue it at any time. If at any point it becomes unnecessary for the Adviser to reduce fees or make expense reimbursements, the Board may permit the Adviser to retain the difference between the total annual Fund operating expenses and 1.00% to recapture all or a portion of its reductions and reimbursements made during the preceding three-year period. For the fiscal year ended July 31, 2008, the Fund paid 0.62% of its average daily net assets in advisory fees to the Adviser.

A discussion regarding the basis for the Board of Trustees' approval of the investment advisory contract with the Adviser is available in the Fund's Semi-Annual Report to Shareholders for the period ended January 31, 2008.

PORTFOLIO MANAGERS

The Fund is managed by a team of investment professionals headed by Mark D. Garfinkel, Chartered Financial Analyst ("CFA"). Although Mr. Garfinkel is primarily responsible for making investment decisions for the Fund, Mr. Jim N. Behre also plays an integral part in generating investment ideas and making recommendations for the Fund.

Mark D. Garfinkel is a founding partner of the Adviser and a member of its management committee. As the Adviser's small-cap growth Portfolio Manager and Chief Investment Officer, he has over 20 years of investment management experience. Prior to the formation of the Adviser in June 2006, Mr. Garfinkel spent 8 years managing Trusco Capital Management, Inc.'s small cap growth discipline, which he and lead analyst, Jim Behre co-designed in 1998. Mr. Garfinkel is a member of the Atlanta Society of Financial Analysts, received his CFA designation in 1993, and earned his B.A. (1986) and M.B.A. (1987) from Vanderbilt University.

Jim N. Behre is a founding partner of the Adviser and a member of the management committee. As the Adviser's small-cap growth Senior Research Analyst and Director of Investment Research, he brings over 22 years of investment experience, specializing in small- to mid-cap companies. Prior to the formation of the Adviser, Mr. Behre worked with Mr. Garfinkel, CFA at Trusco Capital Management, Inc. as the lead analyst of the firm's small-cap growth investment process. In addition, he has had experience as a Securities Principal and Compliance Officer. Mr. Behre is a member of the Atlanta Society of Financial Analysts and earned his B.A. from Barry University (1984) and M.B.A. from Farleigh Dickinson University (1991).

The Fund's Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed, and ownership of Fund shares.

PERFORMANCE OF COMPARABLE ACCOUNT

The information set forth below represents the performance of another mutual fund managed by Mr. Garfinkel with an investment strategy substantially similar to that of the Fund. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The table compares the average annual total returns of the other mutual fund managed by Mr. Garfinkel to the Russell 2000 Growth Index, an unmanaged index generally representative of the market for stocks of small U.S. companies.

The performance information shown below from January 1, 1999 through December 31, 2005 is the performance of the STI Classic Funds' Small Cap Growth Stock Fund (the "STI Fund"), a registered mutual fund managed principally by Mr. Garfinkel while at Trusco Capital Management, Inc. The STI Fund had substantially similar investment objectives, policies and strategies as the Fund.

The bar chart and performance table that follow do not show the performance of the Fund. They show the performance of the STI Fund, a similar mutual fund managed by Mr. Garfinkel. Mr. Garfinkel's past performance in managing this similar mutual fund is no guarantee of the future performance of the Fund.

*This table compares the STI Fund's average annual total returns for the periods ended December 31, 2005 to that of the Russell 2000 Growth Index.**

	1 Year	5 Years	Since Inception
STI Fund Returns	7.92%	7.51%	15.48%
Russell 2000 Growth Index	4.15%	2.28%	6.10%

* The performance information of the STI Fund reflects the operating expenses of the STI Fund's I Shares since their inception on October 8, 1998. Russell 2000 Growth Index returns are since September 30, 1998 (Russell 2000 Growth Index returns available only on a month end basis).

This bar chart shows changes in the performance of the STI Fund's I Shares from calendar year to calendar year during the periods that it was managed by Mr. Garfinkel.

The STI Fund's total return from January 1, 2006 to May 31, 2006 was 5.05%.

PURCHASING AND SELLING FUND SHARES

This section tells you how to purchase and sell (sometimes called "redeem") shares of the Fund.

I Shares of the Fund are for individual and institutional investors.

How to Purchase Fund Shares

You will ordinarily submit your purchase orders through your securities broker or other financial intermediary through which you opened your shareholder account. To purchase shares directly from the Fund through

its transfer agent, complete and send in the application. If you need an application or have questions, please call 1-888-968-4964.

All investments must be made by check, Automated Clearing House (ACH), or wire. All checks must be made payable in U.S. dollars and drawn on U.S. financial institutions. The Fund does not accept purchases made by third-party checks, credit cards, credit card checks, cash, traveler's checks, money orders or cashier's checks.

The Fund reserves the right to reject any specific purchase order for any reason. The Fund is not intended for short-term trading by shareholders in response to short-term market fluctuations. For more information about the Fund's policy on short-term trading, see "Market Timing Policies and Procedures."

The Fund does not generally accept investments by non-U.S. persons. Non-U.S. persons may be permitted to invest in the Fund subject to the satisfaction of enhanced due diligence. Please contact the Fund for more information.

General Information

You may purchase shares on any day that the New York Stock Exchange (the “NYSE”) is open for business (a “Business Day”). Shares cannot be purchased by Federal Reserve wire on days either the NYSE or the Federal Reserve is closed. The price per share will be the net asset value per share (“NAV”) next determined after the Fund receives your purchase order in proper form. “Proper form” means that the Fund was provided a complete and signed account application, including the investor’s social security number, tax identification number, and other identification required by law or regulation, as well as sufficient purchase proceeds.

The Fund calculates its NAV once each Business Day as of the regularly-scheduled close of normal trading on the NYSE (normally, 4:00 p.m., Eastern Time). To receive the current Business Day’s NAV, the Fund must receive your purchase order in proper form before 4:00 p.m., Eastern Time. If the NYSE closes early – such as on days in advance of certain holidays – the Fund reserves the right to calculate NAV as of the earlier closing time. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions.

Buying or Selling Shares Through a Financial Intermediary

In addition to being able to buy and sell Fund shares directly from the Fund through its transfer agent, you may also buy or sell shares of the Fund through your account with your broker or financial intermediary. For the reasons discussed below, if you place an order through a financial intermediary, please consult with the financial intermediary to determine when your order will be executed. In addition, when dealing with a financial intermediary, you will have to follow its procedures for transacting with the Fund. Certain financial intermediaries may charge fees for purchase and/or redemption transactions by customers.

Certain financial intermediaries are authorized agents of the Fund for the sole purpose of accepting purchase and redemption orders for Fund shares (referred to herein as “Authorized Intermediaries”). Purchase and redemption requests sent to such Authorized Intermediaries are executed at the NAV next determined after the intermediary receives the request if transmitted to the Fund’s transfer agent in accordance with the Fund’s procedures and applicable law. So, for you to receive the current Business Day’s NAV, an Authorized Intermediary must receive your purchase or sale order in proper form before 4:00 p.m., Eastern Time. Authorized Intermediaries are responsible for transmitting requests and delivering funds on a timely basis. If an Authorized Intermediary fails to do so, it may be responsible for any resulting fees or losses.

Please note, if your financial intermediary is not an Authorized Intermediary, you may have to transmit your purchase and sale requests to your intermediary at an earlier time for your transaction to become effective that day. This earlier cut-off time allows these intermediaries time to process your requests and transmit them to the Fund. These intermediaries are responsible for transmitting all purchase and redemption requests, investment information, documentation and money to the Fund on time. Purchase and redemption requests sent to intermediaries that are not Authorized Intermediaries are executed at the NAV next determined after the Fund's transfer agent receives the order from the intermediary.

How the Fund Calculates NAV

NAV for one Fund share is the value of that share's portion of all of the net assets of the Fund. In calculating NAV, the Fund generally values its investment portfolio at market price. If market prices are not readily available or the Fund reasonably believes that they are unreliable, such as in the case of a foreign security value that has been materially affected by events occurring after the relevant market closes, the Fund is required to price those securities at fair value as determined in good faith using methods approved by the Fund's Board of Trustees (the "Board"). Pursuant to the policies adopted by, and under the ultimate supervision of the Board, these methods are implemented through the Fund's Fair Value Pricing Committee, members of which are appointed by the Board. The Fund's determination of a security's fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value that the Fund assigns to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

Although the Fund invests primarily in the stocks of U.S. companies that are traded on U.S. exchanges, there may be limited circumstances in which the Fund would price securities at fair value – for example, if the exchange on which a portfolio security is principally traded closed early or if trading in a particular security was halted during the day and did not resume prior to the time the Fund calculated its NAV.

With respect to non-U.S. securities held by the Fund, the Fund may take factors influencing specific markets or issuers into consideration in determining the fair value of a non-U.S. security. International securities markets may be open on days when the U.S. markets are closed. In such cases, the value of any international securities owned by the Fund may be significantly affected on days when investors cannot buy or sell shares. In addition, due to the difference in times between the close of the interna-

tional markets and the time the Fund prices its shares, the value the Fund assigns to securities may not be the same as the quoted or published prices of those securities on their primary markets or exchanges. In determining fair value prices, the Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation/depreciation, or securities market movements in the United States, or other relevant information related to the securities.

Minimum Purchases

To purchase shares for the first time, you must invest at least \$1,000,000. There is no minimum for subsequent investments. The Fund may accept initial investments of smaller amounts in its sole discretion.

Fund Codes

The Fund’s I Shares reference information listed below will be helpful to you when you contact the Fund to purchase shares, check daily NAV or obtain additional information.

Fund Name	Trading Symbol	CUSIP	Fund Code
Perimeter Small Cap Growth Fund	PSIGX	00764Q751	2776

How to Sell Your Fund Shares

If you own your shares directly, you may sell your shares on any Business Day by contacting the Fund’s transfer agent directly by mail or telephone at 1-888-968-4964.

If you own your shares through an account with a broker or other institution, contact that broker or institution to sell your shares. Your broker or institution may charge a fee for its services, in addition to the fees charged by the Fund.

If you would like to have your sales proceeds, including proceeds generated as a result of closing your account, sent to a third party or an address other than your own, please notify the Fund in writing. The Fund requires that signatures be guaranteed by a bank or member firm of a national securities exchange. Signature guarantees are for the protection of the shareholders. Before it grants a redemption request, the Fund may require a shareholder to furnish additional legal documents to insure proper authorization.

Receiving Your Money

Normally, the Fund will send your sale proceeds within seven days after the Fund receives your request. Your proceeds can be wired to your bank account (may be subject to a \$10 fee), sent to you by check or sent via ACH to your bank account once you have established banking instructions with the Fund. **If you are selling shares that were recently purchased by check or through ACH, redemption proceeds may not be available until your check has cleared or the ACH transaction has been completed (which may take up to 15 days from your date of purchase).**

Redemptions in Kind

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions that make the payment of cash unwise and for the protection of the Fund's remaining shareholders, the Fund might pay all or part of your redemption proceeds in liquid securities with a market value equal to the redemption price (redemption in kind). It is highly unlikely that your shares would ever be redeemed in kind, but if they were you would have to pay transaction costs to sell the securities distributed to you, as well as taxes on any capital gains from the sale as with any redemption. In addition, you would continue to be subject to the risks of any market fluctuation in the value of the securities you receive in kind until they are sold.

Involuntary Redemptions of Your Shares

If your account balance drops below \$10,000 because of redemptions, you may be required to sell your shares. The Fund will provide you at least 30 days' written notice to give you sufficient time to add to your account and avoid the sale of your shares.

Suspension of Your Right to Sell Your Shares

The Fund may suspend your right to sell your shares during times when trading on the NYSE is restricted or halted, or otherwise as permitted by the U.S. Securities and Exchange Commission (the "SEC"). More information about this is in the Statement of Additional Information.

Telephone Transactions

Purchasing and selling Fund shares over the telephone is extremely convenient, but not without risk. Although the Fund has certain safeguards and procedures to confirm the identity of callers and the authenticity of

instructions, the Fund is not responsible for any losses or costs incurred by following telephone instructions it reasonably believes to be genuine. If you or your financial institution transact with the Fund over the telephone, you will generally bear the risk of any loss.

OTHER POLICIES

Market Timing Policies and Procedures

The Fund is intended for long-term investment purposes only and discourages shareholders from engaging in “market timing” or other types of excessive short-term trading. This frequent trading into and out of the Fund may present risks to the Fund’s long-term shareholders, all of which could adversely affect shareholder returns. The risks posed by frequent trading include interfering with the efficient implementation of the Fund’s investment strategies, triggering the recognition of taxable gains and losses on the sale of Fund investments, requiring the Fund to maintain higher cash balances to meet redemption requests, and experiencing increased transaction costs.

In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, the risks posed by frequent trading may have a greater potential to dilute the value of Fund shares held by long-term shareholders than funds investing exclusively in U.S. securities. In instances where a significant event that affects the value of one or more foreign securities held by the Fund takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV, certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (sometimes referred to as “price” or “time zone” arbitrage). This type of arbitrage may dilute the value of the Fund’s shares if the price of the Fund’s foreign securities do not reflect their fair value. The Fund has procedures designed to determine the fair value of foreign securities for purposes of calculating its NAV when such an event has occurred. However, because fair value pricing involves judgments which are inherently subjective, the use of fair value pricing may not always eliminate the risk of price arbitrage.

Because the Fund invests in small-cap securities, which often trade in lower volumes and may be less liquid, the Fund may be more susceptible to the risks posed by frequent trading because frequent transactions in the Fund’s shares may have a greater impact on the market prices of these types of securities.

The Fund's service providers will take steps reasonably designed to detect and deter frequent trading by shareholders pursuant to the Fund's policies and procedures described in this prospectus and approved by the Board. For purposes of applying these policies, the Fund's service providers will consider the trading history of accounts known to be under common ownership or control to the extent they believe an investor or group of investors is attempting to evade detection under the Fund's policies and procedures by the use of multiple accounts. The Fund's policies and procedures include the following:

- Shareholders are restricted from making more than one "round trip" into or out of the Fund within any 60-day period. If, to the knowledge of the Fund, a shareholder exceeds either "round trip" restriction, he or she may be deemed a "Market Timer," and the Fund and/or its service providers may, at their discretion, reject any additional purchase orders. The Fund defines a "round trip" as a purchase into the Fund by a shareholder, followed by a subsequent redemption out of the Fund of an amount the Adviser reasonably believes would be harmful or disruptive to the Fund. Anyone considered to be a Market Timer by the Fund, its manager or a shareholder servicing agent may be notified in writing of their designation as a Market Timer.
- The Fund reserves the right to reject any purchase request by any investor or group of investors for any reason without prior notice, including, in particular, if the Fund or its Adviser reasonably believes that the trading activity would be harmful or disruptive to the Fund.
- A redemption fee of 2% of the value of the shares sold will be imposed on shares redeemed within 7 days or less after their date of purchase (subject to certain exceptions as discussed below in "Redemption Fees").

The Fund and/or its service providers seek to apply these policies to the best of their abilities uniformly and in a manner they believe is consistent with the interests of the Fund's long-term shareholders. The Fund does not knowingly accommodate frequent purchases and redemptions by Fund shareholders. Although these policies are designed to deter frequent trading, none of these measures alone nor all of them taken together eliminate the possibility that frequent trading in the Fund will occur.

Financial intermediaries (such as investment advisers and broker-dealers) often establish omnibus accounts in the Fund for their customers through which transactions are placed. In accordance with Rule 22c-2 under the Investment Company Act of 1940, as amended (the "1940 Act"), the Fund has entered into information sharing agreements with

certain financial intermediaries. Under these agreements, a financial intermediary is obligated to: (1) enforce during the term of the agreement, the Fund's, or in certain instances, the financial intermediary's, market-timing policy; (2) furnish the Fund, upon its request, with information regarding customer trading activities in shares of the Fund; and (3) enforce the Fund's, or in certain instances, the financial intermediary's, market-timing policy with respect to customers identified by the Fund as having engaged in market timing. When information regarding transactions in the Fund's shares is requested by a Fund and such information is in the possession of a person that is itself a financial intermediary to a financial intermediary (an "indirect intermediary"), any financial intermediary with whom the Fund has an information sharing agreement is obligated to obtain transaction information from the indirect intermediary or, if directed by the Fund, to restrict or prohibit the indirect intermediary from purchasing shares of the Fund on behalf of other persons. Please contact your financial intermediary for more information.

Redemption Fee

In an effort to discourage short-term trading and defray costs incurred by shareholders as a result of same, the Fund charges a 2% redemption fee on redemptions of Fund shares sold within 7 days of their purchase. The fee is deducted from the sale proceeds and cannot be paid separately, and any proceeds of the fee are credited to the assets of the Fund. The fee does not apply to shares purchased with reinvested dividends or distributions. The redemption fee is applicable to shares of the Fund purchased either directly or through a financial intermediary, such as a broker-dealer. Transactions through financial intermediaries typically are placed with the Fund on an omnibus basis and include both purchase and sale transactions placed on behalf of multiple investors. For this reason, the Fund has undertaken to notify financial intermediaries of their obligation to assess the redemption fee on customer accounts and to collect and remit the proceeds to the Fund. However, due to operational requirements, the intermediaries' methods for tracking and calculating the fee may be inadequate or differ in some respects from those of the Fund.

The redemption fee may not apply to certain categories of redemptions, such as those that the Fund reasonably believes may not raise frequent trading or market timing concerns. These categories include, but are not limited to, the following: (i) participants in certain group retirement plans whose processing systems are incapable of properly applying the redemption fee to underlying shareholders; (ii) redemptions resulting from certain transfers upon the death of a shareholder; (iii) redemptions by cer-

tain pension plans as required by law or by regulatory authorities; (iv) systematic redemptions; and (v) retirement loans and withdrawals. The Fund reserves the right to modify or eliminate the redemption fees or waivers at any time.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means to you: When you open an account, the Fund will ask your name, address, date of birth, and other information that will allow the Fund to identify you. This information is subject to verification to ensure the identity of all persons opening a mutual fund account.

The Fund is required by law to reject your new account application if the required identifying information is not provided.

In certain instances, the Fund is required to collect documents to fulfill its legal obligation. Documents provided in connection with your application will be used solely to establish and verify a customer's identity.

Attempts to collect the missing information required on the application will be performed by either contacting you or, if applicable, your broker. If this information cannot be obtained within a reasonable timeframe established in the sole discretion of the Fund, your application will be rejected.

Upon receipt of your application in proper form (or upon receipt of all identifying information required on the application), your investment will be accepted and your order will be processed at the next-determined NAV.

The Fund reserves the right to close or liquidate your account at the NAV next determined and remit proceeds to you via check if it is unable to verify your identity. Attempts to verify your identity will be performed within a reasonable timeframe established in the sole discretion of the Fund. Further, the Fund reserves the right to hold your proceeds until your original check clears the bank, which may take up to 15 days from the date of purchase. In such an instance, you may be subject to a gain or loss on Fund shares and will be subject to corresponding tax implications.

Anti-Money Laundering Program

Customer identification and verification is part of the Fund's overall obligation to deter money laundering under federal law. The Fund has adopted an anti-money laundering compliance program designed to prevent the

Fund from being used for money laundering or the financing of illegal activities. In this regard, the Fund reserves the right to: (i) refuse, cancel or rescind any purchase or exchange order; (ii) freeze any account and/or suspend account services; or (iii) involuntarily close your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authority. If your account is closed at the request of governmental or law enforcement authority, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

SHAREHOLDER SERVICING ARRANGEMENTS

The Fund may compensate financial intermediaries for providing a variety of services to shareholders. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates. This section and the following section briefly describe how financial intermediaries may be paid for providing these services.

The Fund generally pays financial intermediaries a fee that is based on the assets of the Fund that are attributable to investments by customers of the financial intermediary. The services for which financial intermediaries are compensated may include record-keeping, transaction processing for shareholders' accounts and other shareholder services. In addition to these payments, your financial intermediary may charge you account fees, transaction fees for buying or redeeming shares of the Fund, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request. The Fund does not pay these service fees on shares purchased directly. In addition to payments made directly to financial intermediaries by the Fund, the Adviser or its affiliates may, at their own expense, pay financial intermediaries for these and other services to Fund shareholders, as described in the section below.

PAYMENTS TO FINANCIAL INTERMEDIARIES

From time to time, the Adviser and/or its affiliates, at their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution,

marketing, administration and shareholder servicing support. These payments are sometimes characterized as “revenue sharing” payments and are made out of the Adviser’s and/or its affiliates’ own legitimate profits or other resources, and are not paid by the Fund. A financial intermediary may provide these services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial intermediaries may receive payments for making shares of the Fund available to their customers or registered representatives, including providing the Fund with “shelf space,” placing it on a preferred or recommended fund list, or promoting the Fund in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by the SEC and the Financial Industry Regulatory Authority rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries. For more information please see “Payments to Financial Intermediaries” under the heading “Shareholder Services” in the Fund’s Statement of Additional Information.

The level of payments to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the net asset value or price of the Fund’s shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders, as well as information about any fees and/or commissions it charges.

DIVIDENDS AND DISTRIBUTIONS

The Fund distributes its net investment income and makes distributions of its net realized capital gains, if any, at least annually. If you own Fund shares on the Fund’s record date, you will be entitled to receive the distribution.

You will receive dividends and distributions in the form of additional Fund shares unless you elect to receive payment in cash. To elect cash payment, you must notify the Fund in writing prior to the date of the dis-

tribution. Your election will be effective for dividends and distributions paid after the Fund receives your written notice. To cancel your election, simply send the Fund written notice.

TAXES

Please consult your tax advisor regarding your specific questions about federal, state and local income taxes. Below is a summary of some important tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which may change.

The Fund will distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive may be subject to federal, state and local taxation, depending upon your tax situation. Distributions you receive from the Fund may be taxable whether or not you reinvest them. Income distributions, other than distributions of qualified dividend income, and distributions of short-term capital gains are generally taxable at ordinary income tax rates. Distributions of long-term capital gains and distributions of qualified dividend income are generally taxable at the rates applicable to long-term capital gains.

Each sale of Fund shares may be a taxable event. The gain or loss on the sale of Fund shares generally will be treated as a short term capital gain or loss if you held the shares for 12 months or less or a long term capital gain or loss if you held the shares for longer.

To the extent that the Fund invests in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest the Fund received from sources in foreign countries. The Fund may elect to treat some of those taxes as a distribution to shareholders, which would allow shareholders to offset some of their U.S. federal income tax.

More information about taxes is in the Statement of Additional Information.

FINANCIAL HIGHLIGHTS

The table that follows presents performance information about I Shares of the Fund. The information is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Some of this information reflects financial information for a single Fund share. The total return in the table represents the rate that you would have earned (or lost) on an investment in the Fund, assuming you reinvested all of your dividends and distributions. The information provided below has been derived from the Fund's financial statements, which have been audited by Ernst & Young LLP whose report, along with the Fund's financial statements, is included in the Fund's Annual Report. The report of Ernst & Young LLP, along with the Fund's financial statements and related notes, appears in the Annual Report that accompanies the Statement of Additional Information. You can obtain the Annual Report, which contains more performance information, at no charge by calling 1-888-968-4964.

Perimeter Small Cap Growth Fund

Privacy Notice

The Perimeter Small Cap Growth Fund (the “Fund”) recognizes and respects the privacy concerns of its customers. The Fund collects nonpublic personal information about you in the course of doing business with shareholders and investors. “Nonpublic personal information” is personally identifiable financial information about you. For example, it includes information regarding your social security number, account balance, bank account information and purchase and redemption history.

THE FUND COLLECTS THIS INFORMATION FROM THE FOLLOWING SOURCES:

- Information we receive from you on applications or other forms;
- Information about your transactions with us and our service providers, or others;
- Information we receive from consumer reporting agencies (including credit bureaus).

WHAT INFORMATION THE FUND DISCLOSES AND TO WHOM THE FUND DISCLOSES INFORMATION.

The Fund only discloses nonpublic personal information the Fund collects about shareholders as permitted by law. For example, the Fund may disclose nonpublic personal information about shareholders to nonaffiliated third parties such as:

- To government entities, in response to subpoenas or to comply with laws or regulations;
- When you, the customer, direct the Trust to do so or consent to the disclosure;
- To companies that perform necessary services for the Trust, such as data processing companies that the Trust uses to process your transactions or maintain your account;
- To protect against fraud, or to collect unpaid debts.

INFORMATION ABOUT FORMER CUSTOMERS.

If you decide to close your account(s) or become an inactive customer, we will adhere to the privacy policies and practices described in this notice.

HOW THE FUND SAFEGUARDS INFORMATION.

The Fund conducts its business affairs through trustees, officers and third parties that provide services pursuant to agreements with the Fund (for example, the service providers described above). The Fund does not have any employees. We restrict access to your personal and account information to those persons who need to know that information in order to provide services to you. The Fund or its service providers maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

CUSTOMERS OF OTHER FINANCIAL INSTITUTIONS.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary will govern how your non-public personal information will be shared with non-affiliated third parties by that entity.
